THURSDAY, APRIL 13, 1905

Senator J. C. S. Blackburn opened his campaign for another term in the U. S. Senate with a roasting speech at Williamstown last week. It is wonderful the hold Jo Blackburn appears to have on the Democrats of Kentucky. At times he is abused as a demagogue and a chronic office-seeker but when the time comes around for another campaign the old war horse can get out and make a few speeches and the voters rally round him and are ready to give him what he wants. The prediction is made that the race between Blackburn and Judge Paynter before the next Legislature will be a close one, but so long as the old man retains his vigor, his political cunning and his personal magnetism as he does now he will be safe to back to win.

The Washington Fiscal Court at its meeting last week committed one good act in deciding on the appointment of a Road Superintendent, but it omitted several things which would have been of great benefit to the county. Among other things the court refused to make any bridge appropriations, although petitions were heard from several different points of the county calling for bridges which are badly needed. Good bridges like good roads are a necessity in the promotion of traffic and free intercourse among the peoples of the county, and the demand of the people, where circumstances will permit, should be recognized.

Judge James Hargis of Breathitt county fame is being tried in Lexington for complicity in the assassination of James Cockrell which occurred July 21, 1902. Alex Hargis and Sheriff Callahan will be tried separately for the same crime. That this trio of leaders who are accused of being the chief promoters of crime in 'bloody Breathitt' should have even been brought to trial is a shock not only to themselves but to their clan followers of the mountains. Their conviction would take much of the spirit out of the many would-be killers of Breathitt and would call a halt in feud operations.

After being so badly defeated in their land battles with the Japanese the Russians are not satisfied but are calling for more and the indications are that a great naval battle will take place within the next few days. The Russian Baltic squadron under command of Admiral Rojestvensky has passed Singapore on its way to engage the Japanese fleet in command of Admiral Togo. The opposing forces are nearly equal, with a slight advantage for the Japanese.

Plowing, gardening and house cleaning seem to be the order of the day now.

I have been requested to ask and be answered through the columns of this paper if there is an artist in Springfield to enlarge pictures? Editor please answer. (Yes, E. A. Cox.)

I would be glad if all the correspondents would write if they think the story about the cabbage snake is true, as there is a good many people afraid to raise any more cabbage. (The cabbage snake is one of the greatest as well as the most harmful fakes ever sprung on the public. There never was such a thing as a poisonous cabbage snake. There are worms to be found in cabbage, but they are not poisonous.)—Ed.

We have been blessed with another beautiful rain which was gladly welcomed by all, as some of the ground had gotten so hard that it was impossible to plow.

Hillsboro

The few cold nights of last week caused a number of our farmers a good deal of uneasiness for fear that it would kill their tobacco plants. Many of them covered their beds but we have heard of no plants that were damaged. Frost is reported so far.

Miss Lula Pinkston one of Brookville's most accomplished young ladies visited Miss Jessie Noel Saturday and Sunday.

Dr. Tom Barnett and Rev. G. T. Todd, of MacKville, were in our midst Monday on business.

Misses Susie and Be the Edgerton, two of our most popular young ladies have returned from a visit to Miss Rose Kelley, of Fenwick.

Mr. Bud Gillispie and wife visited the family of Josh Imum several days last week.

John Armo returned home from the city where he had been to see the President. He says that Roosevelt looks like he never knew that there was such a man as Farrier, who wanted his place.

Mrs. Annie G. By brought a harness horse from Dr. Barnett last week for \$100. R. H. McElroy bought 20 ewes and several lambs from John Armstrong. Price—unknown. Fitch Goby bought a rubber tire buggy from McClure & Wells for \$105. Look out girls.

E. D. W. Ezra Sutherland will leave this week for Warren county where he will fill his regular appointments.

Quite a number of our people are arranging to attend the Lit every society at Fenwick Saturday night.

An interesting program has been prepared. The question for debate is "Resolved, that fire is more destructive than water." The affirmative is represented by C. M. Tamey and Will Nalley and the negative by Sanford Logsdon and J. W. Barker and the discussion promises to be a lively one as all are good speakers and those who attend will be well entertained.

Quite a number of our people were in our town Saturday evening shopping.

Mrs. Rose Montgomery and children have moved from this vicinity to make her home with her father Mr. Mattingly near Valley Hill.

Recently there have been some mail boxes on route No. 3 torn down and at first it looked as if the guilty party would be hard to catch as it was done at night. We thought that Uncle Sam would have to look after the matter but it was not long until he became bold enough to attack them in day time and the guilty party was caught which proved to be a loyal colt that was running out on the road and in trying to rid himself of some of his tormentors broke down the boxes. We do not know yet what steps Uncle Sam will take about punishing the lousy colt.

A large crowd was out at Sunday school Sunday evening. Sept. A. O. Anderson organized six classes each with a good membership. The following teachers were selected: Thos. W. Sutherland, B. H. McElroy and J. M. Montgomery; Messrs. James A. Coulter, J. D. Sutherland and Anna Godley. All seem to be deeply interested in the work and are determined as all hazards to make this the most successful ever yet held at this place. We wish them all success possible. LILAC.

OUR IDEAS OF FAIR DEALING

Fair dealing as practiced at this store means more than selling goods at low prices. A low price on goods of inferior quality comes far short of our idea of fair dealing. With us fair dealing stands for the best goods that we can buy at the lowest prices consistent with business safety; it stands for the most careful and conscientious service that modern pharmacy makes possible; it is exemplified fully in the ruling motive of this store, that is, to always give first consideration to the customers' interests.

The Paint you Can be Sure of

The best paint science and experience have been able to devise; the paint that looks best covers most and lasts longest.

Kurfies' Mixed Paint

All of the materials used in it are subjected to analysis and these materials are then combined by the most modern machinery.

Economy in painting depends not on the first cost of material, but on the years that elapse before paint is again required. Judged by this test Kurfies' Mixed Paint costs less than half as much as many of those that cost a little less per gallon.

A Paint for Barns, Roofs and Fences

For barns, bridges, fences, roofs and for any purpose where a paint is needed that combines perfect protection with low cost you will find

Universal Roof Paint

to be the one that does this best. It adheres firmly, protects thoroughly and does not blister and flake off as the ordinary low-price paint does.

Per gallon 60c.

The Old Sugar Bush.

J. C. WRIGHT.

What raptures of joy for the old planter.
In the signs that proclaimed sugar-making was near!
When winter had vanished and spring in her glow
Brought the verdure of joy from the fresh budding tree!
Not much of life's sweets ever fell in the way
Of these heroes who toiled in the earlier day.
The hardy old woodman who blazed out the trail,
The sturdy old farmer with wicker and fall,
The barefooted boy who trudged off to the town,
All lived without glory or fame or renown.
But sweet was their joy when the trees they could tap
And gather in buckets the fast-running sap.
The product is still on the market 'tis said
But not quite the same as in days that are dead.
And though they've improved on their methods, I'm told,
They can never improve on those stout hearts of old.
Then here's to the joy of the old planter.
When nature proclaimed sugar-making was near;
When out in the maples sweet pleasure ran free
In the sturdy old days of pioneer life!

Sunday Court.

Amos Hood and Garfield Divins, two westerners, came to grief Saturday night through the strategy of our local Sheriff Holmes—Chief of Police Smith. The two rough riders had spent most of the day here, and at about 7 o'clock in the evening mounted their bronchos and started for the banks of the Chaplin. Knowing them of old, Chief Smith suspected they "meant mischief," so he confiscated the delivery wagon of Morgan Bros., and with Jailer Tom Chatham followed the two men out Perryville street. As the wagon approached them, Hood not knowing who was in the vehicle, with unmentionable oaths commanded the occupants to alight from the wagon. "All right, I'll get out," replied the Chief, as he jumped to the ground and caught the bridle rein and ordered Hood to dismount. Hood realizing his awful mistake, touchingly implored the officer to let him go on home. The Chief, however, steered his heart against the frenzied appeals of his captive, and mounted the pony and rode to the work house while the prisoner walked in front. Divine escaped by putting spurs to his horse, though Jailer Chatham fired several shots over his head to make him stop. Hood was so anxious to get home on Sunday morning he got Chief Smith to go to the Sunday school and call Judge Corn from the Bible Class and gave him a hearing. His Honor opened court and fined him \$10 and cost and placed him under a \$100 peace bond, and he straightway departed.—Harrisburg Herald.

An Old One.

Mrs. D. C. Tucker, of this city, is the owner of probably the oldest piece of furniture in the

State. It is an old fashioned sideboard and made by her great grandfather, Governor Isaac Shelby, at "Traveler's Rest," which is about five miles from Danville on the Hustonville Pike. This was Governor Shelby's former home. He was a natural mechanic and cut and dressed the wood himself, which was grown on the place. It is made of cherry, and is in a dilapidated condition, owing to its being in use for over a hundred years, but it can be made a handsome piece of furniture. Mrs. Tucker values the piece very highly and has refused several very flattering offers. It was presented to Mrs. Tucker about forty years ago by her grand-mother, Mrs. Isaac Shelby, Sr.—Danville Advertiser.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolf, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand since, as I find they have no equal." C. J. Hayden druggist, guarantees them at 50c.

Important Suit.

Mrs. Amanda Bull, through her attorneys, Rawlings and Voris, has just filed a suit against her nephew, Kirk Elder, asking that a deed to a tract of land which she deeded him in October, 1903, be rescinded and canceled. She alleges in her petition that at the time of making the deed she was a widow 63 years of age, and that she was on that date and had for a number of years previous to that time been sick, and in a very poor state of health, and that she had become greatly enfeebled in both body and mind, and consequently was easily susceptible to the influences, arts and persuasions of her nephew, who corruptly contrived to deprive her of her lands, intending to profit thereby.

One paragraph of her petition states that at and before the time of the execution and delivery of the deed, Elder repeatedly threatened his aunt and offered to do her personal violence and to destroy her property if she did not sign the deed, and that she was intimidated and actually believed that she was in danger of loss of her life, and therefore executed the deed to Elder against her will and consent. The tract of land is located in the West End of Boyle county, where both the plaintiff and defendant are well known, and as both parties are quite prominent the suit will attract considerable attention.—Danville Advocate.

A Dreadful Hike.

After once in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothers and heals burns like magic, 25c at C. J. Hayden, druggist.

OLD-TIME BIRTHDAY.

Mr. Hugh McElroy Writes of a Birthday Dinner Given Nearly Forty Years Ago.

The late Mr. Hugh McElroy in his reminiscences written for his son R. A. McElroy tells of an old-time birthday dinner which was given when he was "three score and ten." The dinner occurred on the 19th of September, 1866 and of it Mr. McElroy writes:

"I gave fourteen of my old friends a birthday dinner on my 70th birthday. The majority of them were my school mates or boys who lived in Springfield when I was a store boy. Their names and ages were as follows: William Parrott, 86 years, Benjamin Spalding 83 years, P. J. Booker 78 years, Reuben Moore 75 years; B. E. Montgomery, 73 years; J. L. Simms 73 years; L. B. Casey 72 years; Pennel Edelen, 71 years; Dr. Ray 70 years; Anthony McElroy 68 years; P. C. Calhoun 65 years, Dr. Polin 65 years; E. Thompson 65, Hugh McElroy 70. The ages of all aggregated 1960 years or an average of 71 1/2 years. Our ages would cover one-sixth of the period back to Adam and Eve's day."

In spite of his age Mr. McElroy was still active in business as will be shown by the further record which he gives as follows: "On that day we sold 50 head of cattle for \$4,000 or \$98 per head. They averaged 1600 pounds. The next month Anthony and I went to Nashville and bought a tract of land near Gallatin, Tenn. containing 540 acres in order to secure a debt of \$11,500."

A Thousand Dollars' Worth of Good.
"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. E. Thomas, a well known coal operator of Buffalo, "I got no relief from medicine until I began taking Foley's Kidney Cure, then the results were surprising. A few doses started the brick-dust like substance and now I have no pain whatever. My kidneys feel like a new man. It has done me \$1000 worth of good. Foley's Kidney Cure will cure every form of kidney or bladder disease. For sale by Wood & Wells."

Want State Fair.

The Joint State Fair Committee, composed of representatives from five commercial organizations in Louisville, is seeking to hold a joint meeting with the Kentucky Live Stock Breeders' Association, under whose auspices the State Fair is to be held.

The joint committee was in session at the Commercial Club yesterday afternoon. The details for holding the fair are so vague that the committee wanted to confer with the Breeders' Association before taking further action. Louisville must give its answer to the Breeders' Association by April 21, including a guarantee for \$15,000, expenses. It was the unanimous sense of the committee that the fair must be held in Louisville this year.

Douglas Park has been eliminated from considerations as a site on account of the lack of street car facilities. Only one street car line extends that far,

and President Minary, of the Street Car Company, has declined to run a double track to Douglas Park. He also says that his company can not handle the crowds over a single line, but that the expense of building a double track is too great to undertake.

A special committee which was appointed to see that J. Winn, of the Jockey Club Park, to use it for a site, reported that they had not reached an agreement on the terms and so nothing has been done in that direction. Secretary J. J. Telford has transmitted to Secretary Clarence Sale of the Breeders' Association the desire of the joint committee for a conference at an early date as can be selected.—Louisville Herald.

Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Pekin, Ill., incurable consumption, his last hope vanished; but Dr. Kings New Discovery for Consumption, coughs and colds, kept him out of the grave. He says: "This great specific completely cured me and saved my life. Since then I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throat or colds; sure preventive of pneumonia. Guaranteed, 50c and \$1.00 bottles at C. J. Hayden's, drug store. Trial bottle free.

To Marry.

Town Topics, just out, publishes the following: "Miss Alice Roosevelt has surrendered her heart and promised her hand and now wears upon her left third finger the jeweled token of her marriage engagement. The successful wooer is the eloquent 'Boy Orator of the Wabash,' Senator Albert J. Beveridge, of Indiana, and the formal announcement of the betrothal will be made at Easter. The news has just come from Washington, whence it is also learned that President Roosevelt is more than pleased and has given the happy pair his paternal benediction. There has been noticed for some months past a most agreeable change in the deportment of the fair Princess Alice. She has grown more womanly, more dignified and altogether more lovable. She has put away her frivolity, while still retaining much of her charm of unconventionality, and the reason is now clear. She is in love. Senator Beveridge is a widower of forty-two. His first wife was Miss Katherine Langsdale, of Greenacres, Ind., who died in 1900."

A DANGEROUS HARBOR.

Gladstone's Physician Gives Warning Against a Growing American Custom.

The growing habit amongst Americans of taking a mint tablet or some other so called digestive after eating a heavy meal, is something that Sir Andrew Clarke, Mr. Gladstone's physicians, advises strongly against, saying, "It is absolutely dangerous to take into the stomach remedies which are popularly supposed to aid in the digestion of food."

There is nothing known to the science of medicine that can perform the work of the human stomach. Drugs do not and cannot digest the food. They simply decompose it. What can be more revolting or disgusting than the thought of taking something into the stomach that is going to turn the good food, you have eaten into a mass of corruption.

The only way to overcome indigestion and its evil effects is to remove all irritation, congestion and inflammation from the stomach, liver and intestines, and Mi-o-na is the only agent known that will do this.

When a Mi-o-na tablet is taken before each meal every trace of irritation and inflammation is removed from the stomach and digestive system, and those organs will extract from the food all that goes to make good, rich blood, firm muscle, steady nerves and a sound healthy body. If you suffer with headaches, indigestion, flatulency, spots before the eyes, vertigo, or dizziness, palpitation of the heart, sleeplessness, or any stomach trouble get a fifty cent box of Mi-o-na from Wood & Wells, one of our most reliable druggists, whose faith in the remedy is shown by their offer to return the money if Mi-o-na does not give complete satisfaction.

Fatal Accident.

Sister Mary Anthony, of the Sacred Heart School, Louisville, was killed in a collision between a street car and freight train at Fourteenth street and Broadway, Louisville, Monday morning, and Sister Mary Lander, Miss Mary McGill and Miss Alice Mullane were injured. None of the injuries will prove fatal.

The funeral of Sister Mary Anthony, the only victim of the accident, was held from Nazareth Academy yesterday morning at 9 o'clock, when high mass was said. Interment took place at Nazareth.

Sister Mary Anthony was thirty-two years old and the daughter of James Nailen, a prominent merchant of Birmingham, Ala. Her name before taking the veil was Frances Nailen. At the age of sixteen she entered the order, taking her preparatory course at Nazareth, from which she graduated three years later. For nine years after her graduation she taught at St. Mary's in Covington, Ky., and from there was transferred to Hyde Park, Mass., where she taught in the parochial school. She came to Louisville two years ago.

Sister Mary Lander was born and raised in Cincinnati, and entered her novitiate at Nazareth when she was eighteen years old.—Bardonia Standard.

New Horse Paper.

Lexington is to have a new horse paper. The new journal is to be published by the Payette Publishing Company and will make its appearance in May. It will be devoted to the interest of the thoroughbred horse. The company will consist of Geo. H. Whitney, R. L. Baker, John S. Barber, Jas. V. Gearing, of Detroit; Kenner Walker and E. W. McLeod. Mr. McLeod will be the editor of the new paper and will be surrounded by a staff of experienced writers. Mr. McLeod has had experience in journalism and was at one time connected with the Democrat. With such prominent men behind it its success would seem assured. The company will be capitalized at \$10,000, and articles of incorporation will be filed within a few days. The details of organization and selection of a name are yet to be announced.

A Remarkable Tree.

O. W. Meserve, of Chambers, returned Thursday from Frymire, Breckinridge county, where he had been to look over a 400-acre tract of timber with a view of purchasing. In viewing this timber he reports having seen a very extraordinary tree. The land belongs to one Mr. Dodson, and the latter says that the original grant of this land from the Government was for a wild plum corner tree. This is a very remarkable, if the records are correct. This original grant was made 130 years ago, and, of course, no one knows how old the tree was at that time. It still stands, a dwarf in size, and planted virtually on a solid rock, the roots of which run out over the edges and enter the ground. This antique specimen of forestry is not more than 2 1/2 inches in diameter and 6 feet tall, but it seems to flourish and do well along with a bunch of much larger and more pretentious specimens.—Hawesville Clarion.

A PLAN WANTED.

President Hawkins of the Growers Company Wants Suggestions for Operating Next Year.

President W. B. Hawkins of the Burley Tobacco Growers Co. is seeking a new plan for organizing for handling the burley tobacco that is grown this year. In a card published in the Harrisburg Herald he acknowledges the impracticability of the former plans and says they must look elsewhere than New York for the money. He calls for suggestions from growers. The following is the card in full:

"This is a question of vital importance. To the growers first, but almost of equal importance to the people of the district. For a long time, while we were working against wind and tide, as it were, others than the growers stood aloof and took no interest in our efforts, but as we neared success they saw the great possibility and they realized what it meant to them to put in the hands of the farmers four or five millions of dollars more than they had been getting. It was then that men in every walk in life said to me: 'I hope you will succeed; you are doing so much for the people.' We will succeed this time. How? Our committees are at work trying to report and settle on a plan by which we can succeed. Of one thing I feel sure, we need not look to New York for money, but we must shape our proposition that our home banks will see that we have a business plan; and let them loan us their money on a safe basis. Now, in order that the whole responsibility may not be put on the committee we invite any and all who are interested to write out fully a detailed plan for the campaign. Do not try to tell it to me, but write your views fully and send me a typewritten copy, so that it may have careful consideration. In this way one will suggest one theme best to adopt, another another, and out of the whole get a sure plan on which we can succeed. I may think I have a good plan, but when it is discussed the others will reject it. Maybe your plan will meet the same fate. Give us your ideas anyway. We want to bar no one, for we are laboring in a common cause. Come to the assistance of the company, and let's get our company in such a shape that will accomplish our purpose, which is a fair value for our labor."

W. B. HAWKINS.

Hemp Machine.

A machine for breaking hemp has been invented which, it is

claimed, will revolutionize the hemp industry. Hemp raising has always been seriously handicapped by the trouble, expense and uncertainty of obtaining labor to do the breaking by hand. A test of the new machine was recently made in Garrard county, Ky., and is said to have been eminently successful and satisfactory. It is claimed that the machine will do the work of one hundred men and do it better than it is done by hand. As a large part of the profits of the hemp crop has heretofore been consumed by this expensive hand labor, it is thought that the general use of the machine will so cheapen the production that it will result in a large increase in the consumption and a consequent increase in the production. Last year's crop of hemp in Garrard county alone is estimated at \$225,000.—Farmers Home Journal.

Man Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Barnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 67 years old." For sale by Wood & Wells.

Negro Kills Himself.

Paduach, Ky.—Surrounded by a posse and officers and seeing the inevitable fate of lynching before him, Charles Hutchinson, one of the most desperate negro criminals that has operated in Western Kentucky, shot and killed himself at Gravel Switch, twenty-one miles east of Paducah, on the Illinois Central railroad, at noon to-day. Hutchinson shot and dangerously wounded a night policeman Young Eider at Fulton Monday morning while the officer was trying to arrest him.

Hutchinson had the aliases of Roy Brown and Wilson and made a daring escape from the police station here on Tuesday. He was traced from Fulton to Paducah and was arrested here on Tuesday while in the express office. After his escape the police notified every station within a radius of 100 miles and a negro detective was soon in communication with the fugitive employing the ruse of aiding Hutchinson escape. The desperado started to Louisville, walking, as he passed Gilbertville Marshal Lee Wicker recognized him from a description by the Paducah officers, and he and a posse gave chase. Hutchinson was pursued across the Ten-

nessee river bridge to the Station. When the posse gained the negro turned on it and shot three times without effect. The posse returned the fire and the negro placed the revolver to his head and shot twice, killing himself instantly. The body was brought to Paducah for burial.

Hutchinson was a negro pugilist known as Kid Ray and was wanted in Birmingham, Ala., and many cities for highway robbery and other crimes. With others Hutchinson burglarized several stores at Dyersburg Saturday night, for which the Fulton officer was attempting to arrest him. The officer may recover. He is in the Memphis Hospital.

April Weather

Snow and ice have been seen in Kentucky during the month of April in years past, and on April 5, 1898, the snowfall amounted to 1.7 inches. The Weather Bureau has issued its statement showing the kind of weather which has been enjoyed or endured in this section during the past thirty-three years, and while this is not in any sense a prediction of what may be expected during the coming month it gives some idea of what was in the past. The weather conditions were such during the thirty-three years that one may predict almost any kind of weather for this month this year. The mean temperature should be 56, but in 1896 the mean temperature was 65; while in 1894 it was 49. The highest temperature ever recorded in April was 80, in 1894, when the mercury reached 81. On April 6th, 1875, the lowest point for April was reached, the minimum being 21. The average date on which the last killing frost occurs is April 9th, although it has come as late as May 14th. The average precipitation for the month is 3.97 inches, but on the 5th of April 1890, 4.06 inches of rain fell in twenty-four hours.

Telephone Extensions

Representative citizens from
Maud, Williamsburg and Mackville
met with Manager Hall of the
Cumberland Telephone Co., at
the office of City Attorney W. F.
Grigsby Tuesday for the purpose
of considering plans for exten-
sion of the telephone service in
this county and establishing
more exchanges. Manager Hall
announced that the company was
willing to establish exchanges at
certain other points in the county
provided a certain number of
subscribers can be secured and
that the company be allowed to
charge standard rates. A com-
mittee was appointed for Maud,
Williamsburg and Mackville to
canvass those towns and sur-
rounding territories with a view
to putting in exchanges at those
points. The committees will
meet again at this place on next
Monday the 17th to report. The
people of the county have be-
come aroused to an appreciation
of the convenience of the tele-
phone and there is a general
demand that the service be ex-
tended through the rural dis-
tricts.

Advertising Pays.

The opening of the two mill-
ery stores last Friday and Sat-
urday as advertised in the News-
Leader two weeks previously
were attended by ladies from
every nook and corner of this
county, and many from the sur-
rounding counties. Both the

Knott Co. and Mrs. Williams re-
port their sales as being in ex-
cess of their expectations. They
had hats to suit all purses and
became all faces. And they ad-
vertised them with the natural
result, people came to see and
bought. The merchants also re-
aped a harvest, and those who
have been persistent advertisers
were remembered by the shop-
pers. Get your business before
the people, and the way to get it
before them is by advertising
your business and your goods,
telling the people of honest val-
ues and attractive goods, and
keeping everlastingly at it. The
News Leader reaches many
homes and is read by thousands
and the advertisements are read
as eagerly as the news items.

THE TERM "IDIOT."

In the Original Greek It Means
Almost a Private Person.

The word idiot is itself of interesting
history. Its primary Greek significance
was that of a private person, a person
from a public person. Our words
idiot, idiotism, etc., are from the
same root. The idiot in Greek was
one not engaged in public affairs.
The beginnings of the degradation
of the word are shown in its application
soon to the common people in dis-
tinction from the upper classes. It was
then applied to unrefined and lay
people and soon became the stinging
title of the unskilled and awkward.
By slow degrees it became applicable
to the feeble minded at last to the in-
ferior and idiot. As late as the sixteenth
and seventeenth centuries the word
was still used in its earlier sense. It
was not until the eighteenth century
that it became usually reduced to
the condition of a beast either about
the house or fields or was actually
driven into the woods and forest to
live in caves, among wild animals, etc.

In 1700 Isaac took a "wild boy" found
in the forests of Aveyron and tried to
teach him. The ability of the wild
boys and wolf children to live and the
number that did so shows that idioty,
as we have later learned, is of all de-
grees and that a mind may be variously
defective in some ways, even idiotic,
but in others with capabilities well pre-
served. Blind Tom, the pianist,
